More about the exhibition at
ndt-russia.ru

The leading industrial exhibitions were held alongside with NDT Russia in 2021:

- More than **7,653 specialists** responsible for the selection and purchase of industrial equipment at the enterprises got acquainted with the products presented by the NDT Russia participants
- The hall where NDT Russia, Testing&Control, PCV Expo and Heat&Power exhibitions were held was visited by **4,756 specialists**. Of these, **1,063 visitors** were interested in non-destructive testing equipment, testing and control and measuring equipment
- The share of senior and middle managers among visitors was **59%**

Visitors opinion:

I have been visiting the exhibition for several years. Here we look at new equipment that is promising for our production, we meet with those with whom contracts have already been concluded and discuss additional points. We have been working with some of them for many years and come to meet and chat. A very good exhibition.

A. M. Churakov, engineer of JSC 'NPP 'Istok' named after Shokin'

I liked the exhibition, found useful contacts. We were looking for measuring equipment, equipment for 3D control. We have found everything we need.

A. V. Sharan, master of Hyundai Motor Manufacturing Rus

We learned about the exhibition recently. We came to conduct ultrasonic control of welding tanks for the enterprise. Positive impressions. Next year we will take engineers with us.

A. M. Namyn, Director of Selgazstroy LLC

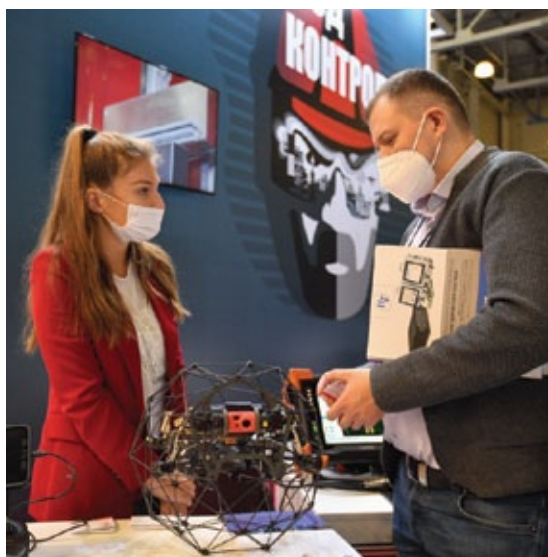

I visited the exhibition for the first time. I really liked it, I received tremendous emotions, I am very glad. I hope to attend this event as often as possible.

K. K. Zakharyan, Sales Specialist of NK-Innovations YUG LLC

Gain access to the entire Russian market and get the maximum coverage of potential buyers and distributors

Facts and figures about Russia:

1st place in the world in natural gas extraction and export (35% of world gas extraction);

1st place in the world in oil production and 2nd place in oil export

1st place in the world in export of steel and 3rd place in export of metal-roll

1st place in the world in electrified railway lines length

4th place in the world in explored reserves of gold

The total population is

146 million people

Moscow is the biggest city in Russia as well as its capital

All country area counted

17 million square meters

The UFI study has already shown that live communication at industrial exhibitions is necessary for business development, and virtual exhibitions do not give the same effect that is usually achieved at classic offline events.

The positive results of the exhibition held in 2021 prove that the traditional exhibition format with real, not virtual communication, visual demonstration of the exhibitors products and saturated business program is the most effective way to solve professional problems for both visitors and participants.
